## **Get Things Done Fast with a Powerful Launcher and Scheduler Application!**

**Sao Paulo, SP** PCWinSoft Systems Ltd has released SuperLauncher, a powerful launcher and scheduler for Windows that allows users to easily launch and schedule any system or user resource including applications, documents, folders, websites, and system tasks. SuperLauncher is extremely easy to use and enables users and workgroups to increase their productivity decreasing stress levels at the same time.

SuperLauncher can eliminate repetitive time-consuming tasks related to the Start Menu, the Favorites Menu, the Desktop, and Windows Explorer. The program gives you instant access to your most used resources by means of keyboard shortcuts and automation.

SuperLauncher sets itself apart from the competition because of its extreme ease of use. New shortcuts are added by drag-n-drop. Wizards instantly let you create schedules and associate keyboard hotkeys. And a shortcut manager is included for taking care of complementary and advanced tasks such as shortcut grouping, editing, deleting, advanced scheduling, and to create custom reminders and text inserters.

With its emphasis on simplicity of use SuperLauncher interface consists of one small window that sits on the desktop or system tray from which users can control the program entirely. From this one window users can execute shortcuts, execute the shortcut manager for advanced operations, or simply use it to drop new shortcuts and instantly associate keyboard hotkeys or create schedules for them.

SuperLauncher is perfect for people and businesses looking to improve their productivity without increasing working hours and most importantly without increasing stress levels. Working environments get more and more demanding every day and your health and that of your employees should be your number one priority. SuperLauncher might not be able to solve all problems related to stress at work but it can certainly help.

SuperLauncher runs under Windows 2000/XP/2003/Media Center/Vista, and may be purchased securely on-line from ScreenCamera Order Page. You can download a free trial version from ScreenCamera Download Page. For more information, contact PCWinSoft Systems Ltd, R Fonseca da Costa 59, Jardim da Saude, Sao Paulo, 04151060 Brazil.
